We have been using Zerona-Lipolaser since last two years in AMAYA CLINIC-USA. The phenomenal results in terms of inch losses made us to bring Zerona-Lipolaser in India and we became the proud pioneers to launch Zerona technology in India at our Mumbai Center (AMAYA™ CLINIC : Lokhandwala Complex , Andheri west , Mumbai-400053) in August 2010. Within a short span of 5 months more than 70 patients have undergone the Zerona treatment along with our own protocols at AMAYA (Mumbai) with results much better than we expected and surely better than our USA centers. We would like to thank our patients to have faith in us and the new technology. We are so much impressed by the results that we are very happy to announce the launch of our new center at Santacruz (west), Mumbai to be started from 18th Jan 2011. Thanks Zerona!

I have used Zerona in my practice and I have found this non surgical technology for fat reduction absolutely wonderful. This gives visible as well as measurable results within a short span of three weeks.

Obesity is a complex disease and not a mere cosmetic problem due to over eating. Especially when disability to exercise becomes an important cause,Zerona laser is a boon for patients with osteoarthritis, high blood pressure, heart disease, diabetes, hypothyroidism, etc. Zerona adds new vigor and confidence in the life of obese patients and brings them back into active life and their desired social circle.

The so far short experience with Zerona is currently very encouraging. Majority of the clients taking the treatment are losing inches and fat. Once we are through in the next few months yes definitely we may get a good and excellent feedback as we would have good number of client data.
